## Career Objective

I aim to secure a position in front end development where I can apply my technical skills to design, develop and maintain innovative and modern web applications.

My goal is to be an integral part of a company's success by working collaboratively with a dynamic team as well as continuously expand my knowledge and skills in the field.

## Certifications

### FreeCodeCamp - Javascript Algorithms and Data Structures

📅 December 2022

### Meta - Frontend Developer Specialization

📅 July 2022 - February 2023

## Work Experience

### Upwork

**Freelancer** 📅 2014 - 2021

#### Translation services

- Translated technical documents to Spanish regarding blockchain technology and cryptocurrencies.
- Provided proofreading services for blogs, articles and websites.

#### Advertising services

- Developed the written communication for multiple brands to effectively reach their audiences.
- Planned advertising campaigns using Google Adwords and Facebook Ads.

## Projects

Check the projects I've built to learn and practice my skills on my **personal website** and on **Github** to see the source code.

## Education

B.S

Marketing and Advertising

**Universidad Rafael Landivar**

📅 January 2012 - October 2016

📍 Guatemala City, Guatemala

## Skills
